Basic wiring diagram for KORAWALL Direct WVD convectors

Heating or cooling

- Control touchpad
- status indicators
- control button

- ontrol touchpad for fan RPM heating/cooling
- 2 control unit of the convector FCR BOX
- 3 power supply 230 V AC/24 V DC
- 4 connection connector
- tangential low-energy EC fan assembly
- 6 thermostatic valve
- temp sensor (room)
- temp sensor (water)

Heating mode ---- LEDs are lit continuously

Cooling mode ---- LEDs are blinking

Changing between heating and cooling mode Hold the control button for 10 seconds

Fan speed	LED	Fan RPM
0	00000	0 – Off
1	• 0 0 0 0	1 – Min
2	• • 0 0 0	2 – Low
3	• • • 0 0	3 – Medium
4	• • • • 0	4 – High
5	00000	5 – Max
